

Sarah Dasher

Data Analyst & Developer

Tucson, AZ | srdasher@gmail.com | 413.441.6613 | [LinkedIn](#) / [Website](#)

Summary

I'm a data analyst with dual Master's degrees in GIS and climate modeling. I've had analytical roles in higher education, scientific research, and Fortune 50 companies. I am equal parts technical and nontechnical, and I excel as a translator between those realms.

I am also passionate about teaching and writing, and I seek out opportunities to exercise those skills.

Core Competencies

- Research & Sponsored Projects Analytics
- Data Visualization: Tableau, OBIEE, Looker
- Executive-Facing Data Reporting | Longitudinal Trend Analysis
- SQL | Python | ETL Pipeline Development
- Stakeholder Engagement | Cross-Functional Collaboration
- Dashboard Design
- Predictive Modeling & Statistical Analysis

Experience

University of Arizona – Tucson, AZ

Data Analyst, University Analytics & Institutional Research (2021-Present)

- Lead UAIR's data reporting and analysis for the university's \$1B+ research enterprise.
- Design custom dashboards and reports on finances, personnel, and compliance for internal and external use.
- Manage the full analytics pipeline, from data ingestion to production-ready dashboards.
- Support strategic planning by identifying trends in research funding and institutional performance.
- Collaborate across senior leadership, academic units, vendors, and IT partners.

ConocoPhillips – Houston, TX

Geologist (2012-2015)

- Built multidimensional subsurface models by integrating geological, drilling, and petrophysical datasets.
- Provided data-driven recommendations to leadership based on field and lab analysis.
- Responded to real-time analytical requests from internal technical teams.

Equisolve, Inc. – Palm City, FL

Contract Technical and Marketing Writer (2020-2024)

- Wrote and edited investor relations website content for global clients including UPS, ExxonMobil, and Centene.
- Distilled complex financial and operational information into accessible web copy.

Sacramento Country Day School – Sacramento, CA

Science Teacher (2007-2010)

- Designed and delivered standards-aligned Earth science and engineering curricula for grades 6–8.
- Integrated technology and project-based learning into classroom instruction.

Self-employed – Various Locations

Academic & Test Prep Webinar Instructor and Tutor

- Partnered with major test prep companies (Varsity, Ready4, Next Step, Kaplan, Revolution Prep) to help students improve test scores and reach education or career goals.
- Facilitated webinars for up to 50 students.
- Developed test prep materials for a global audience.
- Delivered 1,000+ hours of private instruction in math, SAT/ACT/GRE, ASVAB/AFOQT.

Education

University of Wisconsin–Madison

M.S., Geography & Web Map Programming — May 2021

(Cartography, Data Science, GIS, Programming)

University of Arizona

M.S., Geosciences — August 2012

Thesis: The Effects of Topography on the Seasonality of Aridity and Humidity: A Case Study in the Andes...

Amherst College

B.A., Geology & English — May 2004

Thesis: Detailed Strain Analysis of Metaline Quadrangle, Kootenai Arc, Northeastern Washington

Interests and Activities

- Extensive involvement in southern Arizona's running community
- Sierra Club National Outings Leader
- Elementary School Classroom Aide/Volunteer
- Ultramarathoner
- Pacific Crest Trail Thru-Hike

Technical Skills

- Tools & Platforms: Tableau, OBIEE, Looker, ArcGIS, Mapbox
- Languages & Databases: SQL, Python, JavaScript, MATLAB, PostgreSQL, Oracle
- Web Dev Stack: Node.js, Express, Pug
